

Superior Heights C.&V.S. French Immersion

[Introduction](#)

[Table of Courses](#)

French Immersion

Superior Heights offers a comprehensive French Immersion program of 20 courses – one of the largest Immersion programs in the province which aims to develop and refine student’s ability to communicate in French. By the end of the four-year program, students will be able to:

- participate easily in conversations and discussions
- take courses at the college or university level in which French is the language of instruction
- accept employment in which French is the working language.

Our students are also well-prepared for the French language Advanced Placement test and many receive university credits for their level of French competency.

The program requires completion of four Français courses and a combination of other courses taught in French. Upon graduation, students will earn a French Immersion Certificate based on the following tiered system recognizing the correlation between language development and the number of hours of instruction in French:

French Immersion Certificate	Français Courses	Other Courses Taught in French	Total Immersion Courses
Bronze	4	6	10
Silver	4	9	13
Gold	4	11+	15+

Advanced Placement Course

Superior Heights offers the French Language Advanced Placement program as an extension of the Core French and French Immersion programs. AP provides you with an excellent opportunity to enrich and extend your second language experiences. You also may receive advanced placement and/or credits at many Canadian and American universities.
